Resealable film

PRODUCT INFORMATION

Printed film on the roll, for packaging machines.

Roll at the width, gauge and treatment your equipment asks for - flow wrap, vertical or tray. What gets watched most closely here is color between runs: that the December roll prints the same as the January one.

RUNS ON

Flow wrap, vertical and tray equipment, plus giro, daumar and sorma style baggers. The roll is made to your line's width and gauge rather than the other way round.

WORKS GREAT FOR

- **Automatic bagging lines**
  Generic film for giro, daumar and sorma style baggers - the equipment most high-volume produce lines already run.
- **Tray sealing**
  Top seal film in two layers: a 7-colour print plus varnish, and a sealing layer.
- **Resealable retail packs**
  Three-layer resealable film - print, sealing and an opening and closing layer - for produce sold over several days.
- **Form fill seal**
  Film with a CLAF(R) net layer between two film layers, printed up to 7 colours plus varnish, for lines that form the bag and...
