PRODUCT INFORMATION

Paper front, mesh back - print area and ventilation in one pack.

Paper on the face for the print, mesh on the back for the air. It reads as a paper pack on the shelf, which is what a buyer moving away from all-plastic is usually after, without giving up ventilation.

RUNS ON

Supplied as pre-made bags, or as roll stock for form-fill-seal machines.

WORKS GREAT FOR

- **Garlic**
  Garlic sold in paper-forward retail programmes.
- **Citrus**
  Mandarins and small citrus counts where the chain has committed to reducing plastic in the produce aisle but the fruit still...
- **Paper-forward retail programmes**
  Any category where the retailer's packaging commitment is the reason for the change rather than the product's own...
