PRODUCT INFORMATION

Stand-up pouch with a zipper, vented, anti-fog.

A resealable pouch for small counts sold by the unit: the shopper opens it, closes it and puts it back in the fridge. Anti-fog finish so the product still reads through the film after refrigeration, and vent holes so it breathes.

RUNS ON

Supplied as a finished pouch, in 1 oz and 5 oz capacities. The anti-fog finish matters on refrigerated display: without it the film clouds and the product stops selling itself.

WORKS GREAT FOR

- **Mini cucumbers**
  The format this pouch is built around.
- **Snacking produce**
  Grape tomatoes, mini peppers and similar counts sold as snacks.
- **Small counts sold by the unit**
  Anything priced per pack rather than per pound.

SPECIFICATIONS

Capacity	1 oz and 5 oz
Closure	Zipper
Finish	Anti-fog
Ventilation	Ventilation holes
