MESH & NETTING

Vexar Mesh

Extruded net - tough, breathable, and the product stays visible.

Extruded net
Construction

High breathability
Properties

Avocados
Typical uses

PRODUCT INFORMATION

Extruded net - tough, breathable, and the product stays visible.

Extruded net rather than knitted. It holds its shape, breathes, and lets the product show through, which is why it turns up as much in promotional packs and toys as it does in produce.

RUNS ON

Extruded net construction, supplied to the opening and length your operation runs.

WORKS GREAT FOR

- **Avocado**
  Counts sold in a net rather than a bag, where the fruit has to be visible and the pack has to hold its shape on a display.
- **Onion**
  The classic extruded-net application.
- **Citrus**
  Oranges and mandarins in count packs.
- **Promotional packs and toys**
  Outside produce entirely: anything sold as a visible multi-pack where the net is doing the work a printed box would...

SPECIFICATIONS

Construction	Extruded net
Properties	High breathability, product visibility
Typical uses	Avocados, citrus, onions, promo packs, toys
